Design & Approval Process:

1. Design File – The customer provides a high-resolution logo/design file (preferably PDF, or EPS format).
2. File Sent to Polymer Block Vendor – We forward the design to our block maker for processing.
3. Design Proof for Approval – The vendor creates a digital proof/mockup of the design and sends it back to the customer for approval.
4. Customer Approves Design – Any required modifications are made, and the final approval is given by the customer.
5. Polymer Block Production Begins – Once approved, the polymer block is manufactured (takes approximately 1 day).
6. Printing & Production Start – After block completion, we proceed with printing and production as per the order.
